

ebb without flow

the *180 degree pole shift hypothesis*
has manifested itself
into my mind.

you know when you're gazing upon _____ ,
and your eyes come out of focus,
and you want to keep them like that,
just to wallow inside it a while longer?

that's how it feels.

i wrote yesterday
that *oscillation* is at the root of everything.
_____ *illusion* is at the root of everything.
i know it's true, but i don't believe it.

and sometimes,
i float
weightlessly
into space.
but today
i am drifting...
around the earth
like a satellite.
not orbiting.
witnessing.

i hold up an empty jar,
in futile attempts
to catch a wift of air.
yet today i caught one—
it's a tear, a tear
in the sky itself.
and in my brain, a glitch
and the poles, they switch
again, and again, and again, and again,

until there is no longer a "switch."
a coin continuously deformed
into a möbius strip,

only polarity.
